2008 - 2009 RACING SEASON

SPRINT CUP

Bodies: Any recently manufactured Parma 4" Nascar body may be used. When trimming the body no molded detail may be removed and a minimum 1/8" front and rear bumper must be retained unless the body design makes that impossible. Body must be fully painted except the window areas which must remain clear. Rear wheel cut-outs must be open and fronts may be either cut-out or clear. You are encouraged to paint and decal your body to represent a full scale Sprint Cup car or a car that "could" compete in the Sprint Cup Series. This means using appropriate number decals and having sponsors on your car. Painted drivers / interiors are NOT required but encouraged.

Chassis: Any 4" "stamped steel" chassis may be used. Examples are the Parma "Flexi" series of chassis as well as the Champion Turbo Flex and the JK 7's and 11's. No chassis modifications are allowed except for minor filing / grinding of the motor mount to help with gear mesh. Chassis soldering is limited to axle bushings, front wheel retainers, and motor mounting. NO pin tubes allowed. Lead may be added as needed.

Motors: ONLY a sealed, un-modified Parma #501 Death Star motor may be used.

Axles / Gearing: A solid 1/8" rear axle must be used. Any 48 pitch spur gear may be used. Any press-on or solder-on 48 pitch pinion may be used. Front axle must be .063 +/- in diameter and may be soldered to the chassis.

Wheels / Tires: Any black tire with a minimum diameter of .800 may be used. Front tires must be a minimum of .500 in diameter with a metal (not plastic) hub. "O" ring fronts may be used.

Misc.: Any generally accepted guide flag may be used. Pro style lead wire and guide clips may be used. A lead wire retainer may be used BUT not soldered to the chassis. All other general rules (such as maximum width, minimum clearance, track/marshall safety) will apply unless specifically mentioned above. These rules are subject to immediate change if deemed necessary by the race director or track management.

Let's Go Racing !

The FUN Starts HERE !
